

Why Glass?

Glass Is:

Safe, Durable, and Easy to Clean

Our toys are made from borosilicate, also known as Pyrex. Borosilicate is a solid, sturdy, medical-grade glass that can bring pleasure for a lifetime. Non-porous and germ-free, our toys are both boil-able and dishwasher safe. The ability to sterilize our toys makes them safe for vaginal or anal use, and especially suited for partner play.

Designed to Stimulate

Pyrex toys have a silky smooth texture guaranteed to please. The heaviness of the glass makes each piece designed to delight the g- or p-spot. These pleasure points are responsive to pressure which is easy to create with a Vandal® toy. For extra fun, your dildo can be put in warm water or placed in the refrigerator for hot or cool sensations. The feel of a glass toy is an erotic sensation like none other.

A Work of Art

Each piece is a hand sculpted masterpiece. Stimulating to the eyes and body, Vandal Glass® toys will ignite your passions. We have over 12 gorgeous designs shaped for beauty and pleasure. Choose from the simplicity of clear glass to the glitter of a dichroic twist for a toy that feels custom-made for you.

Ordering and Security Information:

You are Secure Shopping with VandalGlass!

You can shop at VandalGlass.com with confidence. We have partnered with Authorize.Net, a leading payment gateway since 1996, to offer safe and secure credit card and electronic check transactions for our customers.

The Authorize.Net Payment Gateway manages the complex routing of sensitive customer information through the credit card and electronic check processing networks (see an online payments diagram). The company adheres to strict industry standards for payment processing, including:

128-bit Secure Sockets Layer (SSL) technology for secure Internet Protocol (IP) transactions.

-

Industry leading encryption hardware and software methods and security protocols to protect customer information.

-
